PROGRAM OUTCOMES	
M.PHARMACY - PHARMACEUTICS	
PO1	Ability to independently carry out research /investigation and development work.
PO2	Ability to write and present a substantial technical report/document
PO3	Students should be able to demonstrate a degree of mastery over the area as per the specialization of the program. The mastery should be at a level higher than the requirements in the appropriate bachelor's program
PO4	Graduates will demonstrate comprehensive knowledge and practical skills in advanced pharmaceutical development, encompassing drug analysis, drug formulation, and evaluation of novel drug delivery systems.
PO5	Students will acquire a deep understanding of regulatory processes and compliance, preparing dossiers for submission to regulatory agencies worldwide. They will navigate the intricacies of innovator and generic drug concepts, ensure adherence to global guidelines, and exhibit expertise in biopharmaceutics and pharmacokinetics.
PO6	Graduates will integrate technological advancements into pharmaceutical research and development, utilizing computational modeling, design of experiments, and prototype modeling.
