EAST POINT GROUP OF INSTITUTIONS

East Point Group of Institutions is one of the largest premier multidisciplinary academic hub situated in the vibrant city of Bangalore, offering a diverse range of programs, including Medical, Engineering, Pharmacy, Nursing, Physiotherapy, Commerce, Management, Computer Application, Allied Sciences, Pre-University and School.

Founded in 1997 by the visionary Dr. S.M. Venkatpathi and operating under the umbrella of the M.G. Charitable Trust, East Point comprises 14 premier institutions offering a diverse array of more than 66 Plus programs. Nestled on a sprawling 100-acre campus, it accommodates over 10,000 students and upholds a philosophy dedicated to humanity, collective learning, and sustainable living.

Admission to all programs at East Point is strictly based on merit. The selection process takes into account past academic records, performance or ranks in admission tests conducted by East Point or recognized statutory institutions, in alignment with government and university/board directives. Additionally, a personal interview is conducted at the college as part of the selection process.

EAST POINT COLLEGE OF PHARMACY

Established in 2004 by M. G. Charitable Trust Bangalore, East Point College of Pharmacy is affiliated with Affiliated to Rajiv Gandhi University of Health Sciences (RGUHS), Approved by the Pharmacy Council of India (PCI), Approved by the Board of Examining Authority (B. Pharmacy) (BEAD). The college offers D. Pharm., B. Pharm., M. Pharm., and Pharm. D.

The college has adequate classrooms, laboratories, and a library, boasting over 15 advanced laboratories and a computer lab equipped with simulation software like Lexicomp. It houses an impressive museum featuring anatomical models and an extensive animal house.

With the library housing over 10,000 books and subscriptions to 17 national and international journals, the college emphasizes faculty participation in seminars and conferences, both locally and nationally. Moreover, the college annually organizes 5-6 seminars, conferences, and faculty development programs.

East Point College of Pharmacy fosters industry ties through MoUs with pharmaceutical companies, while its 1200-bed on-campus hospital offers students internship opportunities, allowing them to operate the hospital's pharmacy section. Additionally, students engage in internships at renowned pharmaceutical companies in Bangalore. Located in Bidarahalli, Virgo Nagar Post, off Old Madras Road, the college provides transport, hostel, and sports facilities, along with numerous student clubs for extracurricular involvement.

COURSE OFFERED

Diploma in Pharmacy (D. Pharm)

Duration: 2 Years

Course Overview: Diploma in Pharmacy (D. Pharm) is a two-year program that provides aspiring pharmacists with the fundamental knowledge and skills essential for their profession. This comprehensive course encompasses theoretical education and hands-on training in Pharmacology, Pharmaceutical chemistry, Pharmaceutics, Pharmacognosy, and Hospital pharmacy.

D.Pharm graduates acquire a profound understanding of drug composition, formulation, and delivery, preparing them for roles as pharmacy technicians, dispensing pharmacists, or pharmaceutical sales representatives in the healthcare industry. The program, combining classroom learning with practical laboratory work, equips students for immediate employment opportunities in various sectors, including government health centers and family welfare societies.

D.Pharm serves as a stepping stone for those aspiring to register with the State Pharmacy Council, establish their own chemist shops, or pursue advanced studies like B. Pharm. Graduates are well-positioned for diverse roles in government hospitals, ESI hospitals, Indian Railways, primary health centers, and private pharmaceutical companies, including positions such as research scientists, medical representatives, and manufacturing pharmacists.

Eligibility: (As notified by the Government of Karnataka, PCI, and BEAD from time to time)

Pass in 10+2 with Physics, Chemistry, Maths / Biology.

Max age: 35 & Min age: 17

For Lateral entry, After D. Pharm Direct Entry to 3rd Semester

Address:

East Point Campus,
Jnanaprabha, Virgo Nagar Post,
Bengaluru - 560 049,
Karnataka, India.

Pharmacy Council of India (PCI)

Board of Examining Authority (B. Pharmacy) (BEAD)

Recognition:

Government of Karnataka (GoK)

Bachelor of Pharmacy (B. Pharm)

Duration: 4 Years

Course Overview: Bachelor of Pharmacy is an undergraduate program in the field of Pharmacy. It is a comprehensive course that delves into the intricate realm of medicines, exploring their effects on the human body, and providing in-depth knowledge about the chemical and organic properties of the elements employed. The primary goal of this program is to educate and train individuals to become competent pharmacy professionals.

During the course, students learn about various aspects of pharmacy, including the properties and effects of medicines on the human body, pharmaceutical analysis, dosage forms, drug delivery systems, and the principles of drug action. The curriculum often includes subjects such as Pharmaceutical Chemistry, Pharmacology, Pharmacognosy, Pharmaceutical Biotechnology, and Pharmaceutical Management.

This program is structured to combine theoretical knowledge with practical skills through laboratory work and internships. Graduates of B. Pharmacy programs are equipped to work in diverse sectors of the pharmaceutical industry, including research and development, manufacturing, quality control, regulatory affairs, and clinical pharmacy. Additionally, they may pursue careers in healthcare settings such as hospitals, community pharmacies, and pharmaceutical education and research institutions.

Students can opt for a master of Pharmacy after completion of B. Pharm.

Master of Pharmacy (Pharmaceutics)

Duration: 2 Years

Course Overview: The Master of Pharmacy (M. Pharm) in Pharmaceutics is a two-year postgraduate program that immerses students in pharmaceutical science, focusing on drug design, development, and delivery. This specialized course covers pharmaceutical technology, dosage form design, and biopharmaceutics to ensure graduates excel in optimizing drug delivery systems for maximum therapeutic impact.

The curriculum seamlessly blends theoretical knowledge with practical applications, offering hands-on experience in pharmaceutical laboratories and research projects. Students gain expertise in quality control, regulatory affairs, and pharmaceutical analysis, preparing them for diverse careers in research and development, manufacturing, and regulatory compliance.

This course incorporates cutting-edge technologies, keeping students abreast of the latest advancements in the pharmaceutical industry. Graduates emerge with a solid foundation in pharmaceutics, ready to contribute to the development of new and improved pharmaceutical products, positively impacting healthcare. This industry-oriented course delves into modern pharmaceutical analytical techniques, drug delivery systems, regulatory affairs, and molecular pharmaceutics.

PGCET CODE:

B 0 1 6

Master of Pharmacy (Pharmacology)

Duration: 2 Years

Course Overview: The Master of Pharmacy (M. Pharm) in Pharmacology is a comprehensive two-year postgraduate program at the forefront of pharmaceutical science. Tailored to produce professionals for diverse sectors including Drug Control, Medicinal Research, Pharmacy, Educational Institutes, Health Centers, and Food Administration, the course delves into the intricate science of drug action on biological systems. Aspiring candidates with an inclination for pharmaceutical study, laboratory work, scientific research, and technical aspects of drug production find this program ideal.

The curriculum, blending practical and theoretical learning, revolves around the study of drugs and their effects on organisms. Key subjects encompass pharmacokinetics, pharmacodynamics, toxicology, molecular pharmacology, and drug development. Through coursework, laboratory exercises, and research projects, students acquire advanced knowledge and skills crucial for contributing to the development, evaluation, and optimization of pharmaceutical products.

The program's industry-oriented approach enhances employability, and professionals may explore roles such as Research Scientist, Teacher, or Project Assistant in various sectors. Additionally, M. Pharm opens avenues for higher studies like Ph.D.

Doctor of Pharmacy (Pharm D)

Duration: 6 Years

Course Overview: Pharm. D or Doctor of Pharmacy is a 6-year program that integrates core pharmacy courses and clinical exposure, preparing graduates for diverse roles in healthcare, industry, or further academic pursuits. This clinically-oriented course focuses on Clinical Pharmacology and Therapeutics, aiming to enhance Clinical and Hospital Pharmacy Services. The curriculum spans two phases: Phase I covers the first five academic years, while Phase II involves a year-long internship or residency training in specialty units. The sixth-year internship allows students to apply their knowledge in actual pharmacy practice or clinical settings.

The Pharm. D course distinguishes itself from traditional pharmacy programs like B. Pharm and M. Pharm by its patient-specific approach. Students are trained to counsel patients, provide information about drug dosage, timing, and administration, and understand the mechanism of drug actions, side effects, and adverse reactions. It also emphasizes lifestyle changes to improve patient health. The program is crucial in a country like India, addressing issues of irrational medication usage and non-compliance with therapy.
