

## **ACADEMIC EXCELLENCE**

At East Point College of Pharmacy, academic excellence is not only encouraged but also celebrated. The institution understands that recognizing and rewarding high-achieving students creates a culture of motivation and sets a benchmark for others to aspire. To honour these exceptional individuals, the college management has established a system of cash prizes and appreciation certificates for students who achieve remarkable academic success.

Over the course of the last five years, the diligent students of East Point College of Pharmacy have distinguished themselves by achieving an impressive total of over 214 University subject ranks. This outstanding accomplishment not only underscores their high level of academic excellence but also reflects their unwavering dedication to their studies.

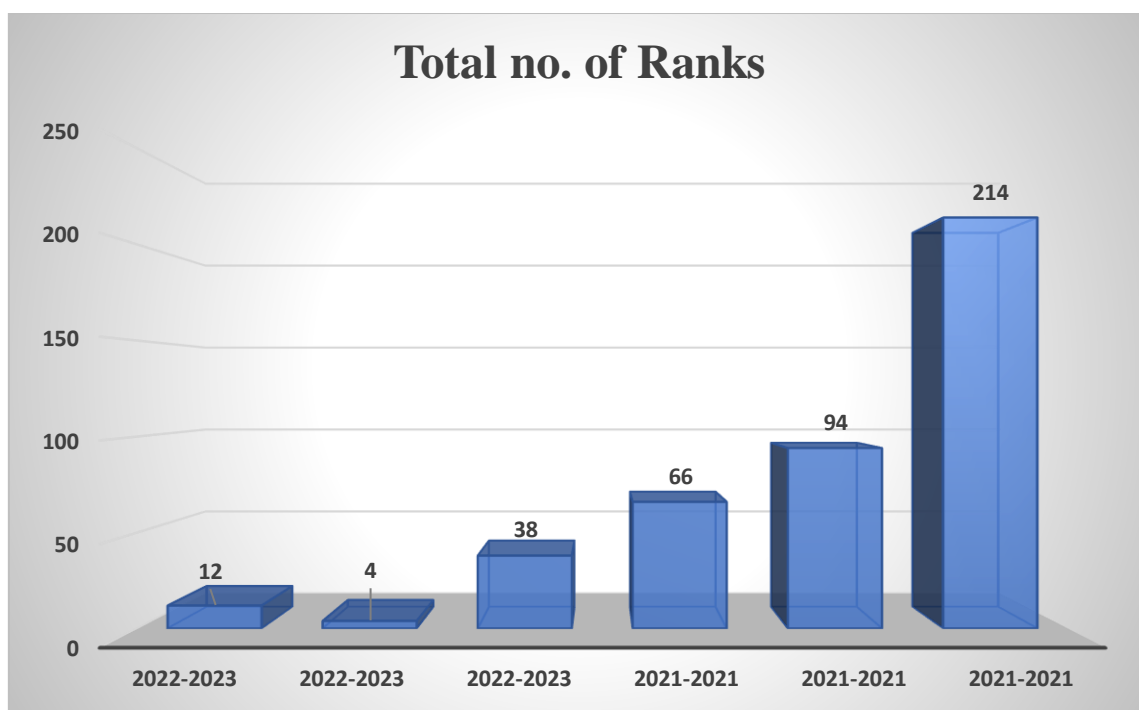

Moreover, the exceptional performance of six students has resulted in their attainment of the prestigious status of overall University rank holders. This signifies a remarkable level of achievement and is a testament to their exceptional academic abilities.

In recognition of these extraordinary accomplishments, East Point College of Pharmacy has implemented a reward system to honor its high-achieving students. Notably, the college presents a cash prize of INR 5,000 to each overall University rank holder as a token of appreciation for their outstanding performance. Additionally, subject rank holders are presented with a certificate of excellence in acknowledgment of their remarkable achievements.

It is evident that the implementation of this monetary reward system not only serves as a tangible acknowledgment of the student's hard work but also aims to provide motivation for them to continue striving for excellence in their academic pursuits.
